VEHICLES/PIECES OF EQUIPMENT

- B. Approximately 670 pieces of equipment are observed parked between equipment sheds. Also observed on a rail siding are 10 railroad cars.

OCCUPANCY AND ACTIVITY

The installation contains a moderate degree of track activity which is limited to the established road network. The presence of building activity, open storage, and the rail cars indicates that transshipment was occurring at the time of the photography and the permanent facilities are being expanded.

PI REMARKS

The depot is covered on clear, good quality photography. However, the resolution was not of sufficient quality to identify the types of equipment. The absence of vehicular maintenance facilities and vehicular scarring
